HOW TO CITE RULES AND RSMO

RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

Code and Register on the Internet

The *Code of State Regulations* and *Missouri Register* are available on the Internet.

The *Code* address is sos.mo.gov/adrules/csr/csr

The *Register* address is sos.mo.gov/adrules/moreg/moreg

These websites contain rulemakings and regulations as they appear in the *Code* and *Registers*.

Rules appearing under this heading are filed under the authority granted by section 536.025, RSMo. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

Rules filed as emergency rules may be effective not less than ten (10) business days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

All emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

EMERGENCY RULE

8 CSR 50-5.005 Presumption of Occupational Disease for First Responders

PURPOSE: This emergency rule implements changes to the Missouri Workers' Compensation Law effected by the Governor's Executive Order 20 02 and Executive Order 20 04 and pursuant to the Governor's emergency powers under Chapter 44, RSMo.

EMERGENCY STATEMENT: This emergency rule incorporates and implements changes to the Missouri Workers' Compensation Law effected by the Governor's Executive Order 20 02 and Executive Order 20 04 pursuant to the Governor's emergency powers under Chapter 44, RSMo. Section 44.100, RSMo, provides that during a state of emergency, the Governor is authorized to "perform and exercise such other functions, powers and duties as may be necessary to promote and secure the safety and protection of the civilian population." Emergency enactment of this rule is necessary to preserve the compelling governmental interest of protecting the health and welfare of First Responders during a time of declared state and national emergency relating to the COVID 19 pandemic.

This emergency rule creates a presumption that First Responders infected by or quarantined due to COVID 19 are deemed to have contracted a contagious or communicable occupational disease arising out of and in the course of the performance of their employment.

Emergency enactment of the rule will also assist the Missouri State Department of Health and Senior Services in performing their critical duties of providing for the health and welfare of Missouri citizens.

The scope of this emergency rule is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri* and *United States Constitutions*. The Missouri Division

of Workers' Compensation believes this emergency rule is fair to all interested persons and parties under the circumstances. This emergency rule was filed April 8, 2020, becomes effective April 22, 2020, and expires February 1, 2021.

(1) A First Responder, defined as a law enforcement officer, firefighter or an emergency medical technician (EMT), as such occupations are defined in Section 287.243, who has contracted or is quarantined for COVID 19, is presumed to have an occupational disease arising out of and in the course of their employment. Such presumption shall include situations where the First Responder is quarantined at the direction of the employer due to suspected COVID 19 exposure, or the display of any COVID 19 symptoms, or receives a presumptive positive COVID 19 test, or receives a COVID 19 diagnosis from a physician, or receives a laboratory confirmed COVID 19 diagnosis.

(2) The presumption set forth in section (1) shall retroactively apply to all First Responders who otherwise meet the requirements set forth in this emergency rule.

(3) A First Responder is not entitled to the presumption in section (1) if a subsequent medical determination establishes by clear and convincing evidence that the First Responder did not actually have COVID 19, or contracted or was quarantined for COVID 19 resulting from exposure that was not related to the First Responder's employment.

(4) The provisions of this emergency rule shall cease to be in effect at the expiration of the state of emergency declared in Executive Order 20 02 or any successor executive order extending the state of emergency, whichever occurs later, or upon the expiration of this emergency rule as set forth in Chapter 536.

AUTHORITY: section 287.650, RSMo 2016. Emergency rule filed April 8, 2020, effective April 22, 2020, expires Feb. 1, 2021.

PUBLIC COST: Due to the state of emergency caused by the COVID 19 pandemic and the impossibility of predicting the viral infection rates, the potential long term health effects and the fatality rates of First Responders, the fiscal impact of this emergency rule is unknown.

PRIVATE COST: The overwhelming majority, if not all, of the First Responders covered by this emergency rule are employees of state or local governments. Due to the state of emergency caused by the COVID 19 pandemic and the impossibility of predicting the viral infection rates, the potential long term health effects and the fatality rates of First Responders, the fiscal impact of this emergency rule is unknown.

SECRETARY OF STATE

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted printed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment, or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety- (90-) day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

A Breeder's Movement Certificate may be completed by the breeder. The form must list the official identification, age, gender, species, complete address of both the origin and destination, and complete address and name of buyer and seller. **Title 3—DEPARTMENT OF CONSERVATION
Division 10—Conservation Commission
Chapter 5—Wildlife Code: Permits**

ORDER OF RULEMAKING

By the authority vested in the Conservation Commission under sections 40 and 45 of Art. IV, Mo. Const., the commission amends a rule as follows:

3 CSR 10-5.554 Nonresident Archery Antlerless Deer Hunting Permit is amended.

A notice of proposed rulemaking containing the text of the proposed amendment was published in the *Missouri Register* on January 15, 2020 (45 MoReg 102). No changes have been made in the text of the proposed amendment, so it is not reprinted here. This proposed amendment becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The Conservation Commission received one (1) comment on the proposed amendment.

COMMENT #1: Daniel Rogers, El Dorado Springs, expressed opposition to the proposal to add the new reduced cost Nonresident Landowner Archer's Hunting Permit to the list of permits that can be used as a prerequisite to purchase a Nonresident Archery Antlerless Deer Hunting Permit, believing that this change will result in additional costs to archery hunters.

RESPONSE: Current regulations require nonresident landowners to purchase a full price Nonresident Archer's Hunting permit to qualify to purchase a twenty five dollar (\$25) Nonresident Archery

Antlerless Permit. This change will result in a cost savings for those individuals by allowing them to use a reduced cost nonresident landowner permit to meet that requirement. No changes have been made to the rule as a result of this comment.

NOTICE OF SUSPENSION OF RULE

**10 CSR 10-6.250(3)(B) Asbestos Projects Certification,
Accreditation and Business Exemption Requirements**

ACTION TAKEN: This NOTICE OF SUSPENSION OF RULE 10 CSR 10 6.250(3)(B) applies to the annual recertification of asbestos professionals. Regulation 10 CSR 10 6.260(3)(B) states that "All asbestos inspectors, management planners, abatement project designers, supervisors, and workers shall pass a Missouri accredited annual AHERA refresher course and examination in their specialty area." Certification classes have been cancelled and postponed due to social distancing requirements, and many professionals will see their certifications expire during this time despite their best efforts to obtain recertification. This temporary suspension applies only to the portions of 10 CSR 10 6.250 related to recertification and required classes, and allows these professionals to continue operating with expired certifications to the extent they have met all other requirements of the rule other than the normally required certification classes, and allow citizens and businesses to continue using these professional services, until such time as either (1) social distancing requirements are removed and routine recertification processes can resume, or (2) the Department can develop alternative methods of recertification that comply with social distancing requirements.

EMERGENCY STATEMENT: Pursuant to Executive Order (EO) 20 04 dated March 18, 2020, the rule is suspended effective April 8, 2020 until May 15, 2020.

ACTION TAKEN: This NOTICE OF SUSPENSION OF RULE 10 CSR 20 6.010(5)(G)3. applies to the following rule language only: "along with one (1) paper copy for projects not seeking department funding or two (2) paper copies for projects seeking department funding under 10 CSR 20 4." 10 CSR 20 6.010(5)(G)3. requires applicants for a construction permit to construct, install, or modify any collection system or wastewater treatment facility to submit both electronic and paper copies of the application form and associated documents. This

temporary suspension removes the requirement to submit paper copies, which will reduce the burden on applicants, decrease the amount of mail that must be handled during this time, and allow more effective remote work. Electronic copies still must be submitted and the Department may require hard copies in specific situations, if necessary.

EMERGENCY STATEMENT: Pursuant to Executive Order (EO) 20 04 dated March 18, 2020, the rule is suspended effective April 8, 2020 until May 15, 2020.

This temporary suspension allows the Board to defer the in person closed book test until a later time, provide an online, open book, non restricted test in lieu of the closed book test, and subject to passage applicants may be granted an interim permit and begin work. This suspension reduces the burden on applicants, allowing them to pursue their certification while adhering to social distancing requirements. The applicants will be required to take the closed book test at a later date.

EMERGENCY STATEMENT: Pursuant to Executive Order (EO) 20 04 dated March 18, 2020, the rule is suspended effective April 8, 2020 until May 15, 2020.
